

5005
Transportation of Option Students

The board of education shall set the rate for transportation services for option-enrolled students. Such transportation may only be enacted if there is mutual agreement between the school district and the parent or legal guardian of the option student. Under no circumstances will an option student(s) be provided school transportation to and from his/her homestead if the result of such transportation (1) necessitates the addition of a third bus route and/or (2) increases the time necessary to run the complete bus route beyond the limit of one hour.
